

NEW VISITATION GUIDELINES

Effective February 22, 2021, the Palm Beach Health Network has announced a new visitation policy:

Hospital Visitation Guidelines:

- One visitor for hospital inpatients. Please note: restrictions may continue for certain areas, including intensive care and COVID units.
- For L&D/OB mothers, pediatric patients, and NICU patients, two visitors will be allowed.
- One visitor for patients undergoing surgery or having a procedure.
- One visitor for patients having an outpatient or therapy visit.
- One visitor for all ER (emergency room) patients.

Hospital Visitor Requirements:

All visitors must check-in at an entrance.

- Visitors will be required to wear a face mask at all times.
- Visitors must remain in the patient room/area.
- By entering any hospital, visitors are attesting to COVID-19 screening per CDC Guidelines.

Visitors may be denied if they:

- Present with potential COVID-19 symptoms
- Have other risks as identified by CDC guidelines
